

IZYUM_RECOVERY

URBAN PLANNING AND COMMUNITY PROJECT

The project is implemented by PORTAL-21 LLC, ARCHITEKTENWEREKGRUPPE and co-financed by the ZMINA: Rebuilding programme, established with the support of the European Union as part of a special call for proposals to support Ukrainian IDPs and the Ukrainian cultural and creative sectors, with the support of the IZOLYATSIA Charitable Foundation, Trans Europe Halles and Malý Berlín. The project was supported at the national and international levels.

ADAPTIVE MODEL OF A RESIDENTIAL NEIGHBOURHOOD

International project partners: ARCHITEKTENWERKGRUPPE, Tübingen, Germany StadtLandFluss, Nürtingen, Germany

MISSION: TO CREATE A SUSTAINABLE, ADAPTABLE MODEL FOR EXISTING NEIGHBOURHOODS IN EMERGING COUNTRIES THAT INTEGRATES THE IDEAS OF THE NEW EUROPEAN BAUHAUS

The goal of the project is to create a visible and attractive sustainable concept for a residential area that will take into account all the factors of change that require rethinking living spaces for their effective functioning and communication with nature and humans.
